NewPage Port Hawkesbury Corp operates one of the world's largest supercalendered paper machines and a specialty newsprint machine at the Strait of Canso. We are a leader in modern forest management, operating under the ISO 14001 Registered Environmental Management System, CSA, SFI and FSC forest certifications. Our Woodlands Unit manages 630,000 hectares of forest land and purchases wood from private woodlots in eastern and central Nova Scotia

Notice to Landowners and Wood Producers

NewPage Port Hawkesbury Corp. is actively purchasing wood throughout the winter months. Increased production and full operations of our mills mean that wood demand is high and increased pricing is in effect. Between February 21 and April 30, 2011 the roadside price for standard grade pulpwood will be \$50.00 per tonne in the seven eastern counties.

We buy:

- Pulpwood and studwood at roadside
- Standing timber

We offer the following benefits to landowners:

1. Purchase quotation for standing timber
2. Processing forest products into sawlogs/studwood, pulpwood and fuelwood
3. A management plan prepared for your property to your wishes
4. Reforestation arrangements after harvest
5. Harvesting by professional contractors with Master Logger certification working under company supervision and applying the principles of ISO 14001, CSA, SFI and FSC forest certifications

Wood producers note:

1. New improved prices remain in effect
2. Purchasing pulpwood for the NewPage Port Hawkesbury mill and studwood for the Ligni Bel sawmill in Scotsburn
3. Dependable, accurate payment for your wood
4. Trucking services or deliver-your-own arrangements
5. Long-term wood supply commitments
6. A silviculture program for landowners
